SOUNDING walks

Join one of four Sounding Walks
an artwalk by Caro McCaw Vicki Smith and
creative technologist Andrew Hornblow

Listen, walk and talk with scientists about:

- our local marine mammal neighbours
- ancient fossil bones in a working paleontology museum
- acoustic underwater worlds and noise pollution

In a small group we will encounter acoustic oceans
through wi-fi enabled umbrellas.

Together we navigate our shared understandings.

Sat 28th July	with Sophie de Witte
Sun 29th July	with Prof Liz Slooten
Sat 4th August	with Prof Liz Slooten & guest
Sunday 5th Aug	with Caro McCaw&Vicki Smith

DETAILS:

facebook.com/SOUNDINGdunedin
or Otago Museum website
